

Dear Chris,

Enclosed are some notes from this year's  
Museum internships. Funds from the  
Foundation allow us to host these interns  
and give them a multitude of experiences  
with Studebaker and Museum work.  
Thank you for supporting this valuable program.

All the best,

Marina

---

Hello,

Thank you so much for your generous donation! Because of your gift, I was able to complete a summer internship at the Studebaker Museum. I have learned invaluable skills - that will serve me in my future career because of this amazing opportunity. I have gotten the chance to learn about how a museum operates, as well as learning in depth about the museum's impressive collection and archival storage. This experience has created a strong foundation for my future career aspirations. I am very grateful for your support.

Thank you so much,

Madeline Solkey

Dear Studebaker National Foundation,

I am writing to express my gratitude for the opportunity you provided for me to intern at the Studebaker National Museum this summer! I have been so lucky as to work with Kyle Sater, Andy Beckman, Pat Stebonick and many other wonderful individuals. I have accessioned items, created a new display case, written, laid out, and taken photos for a new museum guidebook, and so much else including assisting with the new exhibit "Manufacturing Victory" and the 3<sup>rd</sup> Concours d'Elegance at Copsholm! I have enjoyed every single day of work this summer, and wish to thank you for your generosity; without your financial support I would not have been able to take this opportunity to learn about museum work and take a step towards a career in it!

Most sincerely,

Augustine Sedd
